

BERNARDO

Software Engineer Intern | Full Stack Developer Intern

Chennai, India | narded2007@gmail.com | +91 9750861560 | [GitHub](#) | [LinkedIn](#)

CAREER OBJECTIVE

Full Stack Developer with hands-on experience building and shipping nine production-style web applications spanning EdTech, AI tooling, and productivity. Comfortable owning a feature from database schema to deployed UI, writing clean and maintainable code, and learning new tools quickly to solve real problems. Seeking a Software Development or Full Stack Development internship to contribute to and learn from a high-caliber engineering team.

EDUCATION

Sathyabama Institute of Science and Technology
Bachelor of Engineering, Computer Science & Engineering

2025 - 2029
CGPA: 9.32 (Sem 1: 9.47, Sem 2: 9.17)

CORE SKILLS

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, Python, FastAPI

Database: PostgreSQL, MongoDB, Prisma ORM, Neon

Tools: Git, GitHub, VS Code, Figma, Vercel

PROJECTS

Campus Orbit *Flagship Project · Next.js, TypeScript, Prisma, PostgreSQL (Neon), Vercel*

- Built a full-stack college discovery platform enabling students to search, compare, and explore colleges with saved-college lists and discussion features.
- Engineered a personalized college prediction and comparison tool backed by a relational schema in PostgreSQL via Prisma ORM, with authentication and production deployment on Vercel.
- Designed the end-to-end architecture solo, from database modeling to responsive UI, using Next.js, React, TypeScript, and Tailwind CSS.

ShadowNet AI *SIMATS Engineering & Origin Hackathon · Python, FastAPI, React, NetworkX*

- Developed an AI-powered cybersecurity platform that builds a graph-based Digital Twin of a network to simulate attack paths and visualize vulnerabilities.
- Implemented interactive attack-path simulation and risk analysis using NetworkX, Pandas, and Scikit-learn on a FastAPI backend, with a React threat-visualization dashboard.

BERD AI Resume *AI SaaS · Next.js, TypeScript, Tailwind CSS, AI API Integration*

- Built an AI-assisted resume builder that generates professional resume content through API-integrated intelligence, wrapped in a clean, modern interface.

BERD Vault *EdTech · In Development · Next.js, Prisma ORM, PostgreSQL*

- Building a student collaboration platform for sharing notes and academic resources, with planned support for exam mode and rankings.

BERD Habit, Focus, To Do List & Track *Productivity Suite · Next.js, React, TypeScript, Tailwind CSS*

- Shipped four standalone productivity apps: a habit tracker with plant-growth progress visualization, a distraction-free focus app, a task manager with a clean responsive UI, and an expense tracker with a spending-overview dashboard.

ACHIEVEMENTS

- Winner, hackathon organized by SIMATS Engineering College and Origin Hackathon.
- Selected member, AWS Club Technical Team.
- Maintaining a 9.32 CGPA while independently building and shipping nine full-stack projects.

LEADERSHIP & INVOLVEMENT

- AWS Club — Technical Team member, contributing to club technical initiatives and peer learning.
- Active hackathon participant, collaborating in fast-paced, team-based product development environments.

All projects are publicly available and actively maintained on GitHub (github.com/Bernardo-e), with an emphasis on clean code and clear documentation.
